← 20% highest-studied genes

All protein coding genes (19,243 genes)  
All hits (9,268 genes)  
Hits in title/abstract (18 genes)  
Hits in title/abstract in citing articles (19 genes)

All protein coding genes (19,243 genes)  
All hits (17,346 genes)  
Hits in title/abstract (92 genes)  
Hits in title/abstract in citing articles (335 genes)

All protein coding genes (19,243 genes)  
All hits (7,919 genes)  
Hits in title/abstract (311 genes)  
Hits in title/abstract in citing articles (407 genes)

All protein coding genes (19,243 genes)  
All hits (543 genes)  
Hits in title/abstract (216 genes)  
Hits in title/abstract in citing articles (200 genes)
